2.). 3.) Problems and Solution Approach

PROBLEMS	SOLUTIONS
I wanted to know some additional styling elements and tags to modify my website.	I learned them with the online tools
Designing two logos <ol style="list-style-type: none">1. Website logo2. Business logo	I used Adobe Photoshop and Adobe illustrator to create them. And I created them by my own.
Designing the Fiverr, Instagram, and Pinterest logos and creating them in the same color format as I wished.	For this also I used Adobe Photoshop to create them.
Wanted to create a colorful and attractive website.	I Chose some beautiful color palettes and fonts and some icons to create them attractive.
Bugs and errors	Identified the corrected the mistakes.

8. Conclusion

This website's name is Hobmine and the logo of the web is given above. In all the web page's top-right corner this logo is fixed that is a destination link to the home page. And this website will give the relevant ideas of the 4 hobbies such as gardening, graphic designing, photo editing, reading books. Overall, I believe that this website is colorful, attractive and describe the professionalism.
